November Community Newsletter

The Gordie Howe International Bridge November Community Newsletter is available on the project [website](#). Read about five years of construction, environmental reporting, community involvement, the commemorative artist announcement and more.

The Gordie Howe International Bridge project between Windsor, Ontario and Detroit, Michigan will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA) and working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America design, build, finance, operate and maintain the bridge.

CELEBRATING FIVE YEARS OF CONSTRUCTION

October 5, 2023, marked five years of construction on the Gordie Howe International Bridge project. Since beginning construction in October 2018, the project team has made critical progress on each of the four project components. Recent construction achievements include:

- The US bridge tower reached its full height of 220 m/722 ft in August 2023.
- The Canadian tower will reach its full height of 220 m/722 ft in November 2023.
- Half of the 55 bridge deck segments over the Detroit River have been installed.
- 116 of the 216 stay cables have been installed to connect the towers to the bridge deck.
- Over 10 million hours of work have been logged and over 10,000 people have been oriented to work on the project.

Living beside a major construction project can be challenging, and the project team deeply appreciates the patience Sandwich and Delray/Southwest Detroit residents and businesses have shown to date.

To recognize this patience and support, the project team hosted celebratory thank you breakfasts in both communities. Approximately 700 people attended the two events, held at Clark Park in Detroit and at Sandwich Teen Action Group (STAG) in Windsor. Attendees enjoyed free food, entertainment and family-friendly activities.

The project team is committed to continued engagement with residents, businesses and community members as construction advances and we begin preparations for opening day. The communities' enthusiasm for the project motivates and inspires all those working across the construction sites and corporate offices.

US Port of Entry Flyover Footage

Check out this new flyover drone footage of the US Port of Entry (POE). You will get a closer look at the work taking place on the 13 structures at the POE which includes drywall, plumbing, utility installation and the beginning of paving and grading throughout the site.

Earlier this month we shared drone footage of the Gordie Howe International Bridge Canadian Port of Entry (POE). This new [gallery](#) provides a closer look at the structures, toll booths and inspection lanes. With our on-the-ground footage you will get a better idea of what it will be like to go through the Canadian POE.

Celebrating With Our Communities

Thank you to all who attended the Gordie Howe International Bridge Community Appreciation Breakfasts in Windsor and Detroit. The project team was happy to mingle with approximately 700 community members, who expressed excitement for the project. The communities' enthusiasm motivates and inspires all those working across the construction sites and corporate offices.
