

# Make Your Own Digger

What you need: construction paper, glue, scissors, hole punch, fasteners (brads or eyelets), crayons or markers.

1. Paste the image below to a piece of construction paper.
2. Colour the digger and digger parts.
3. Cut the pieces out and punch holes where letters are marked.
4. Attach the parts using fasteners (brads or eyelets).

Take a photo of you and your project and share it with us and we'll add it to our Facebook and Twitter feeds!

Fun Fact: A digger can also be called a backhoe or excavator!
